Our Mission

Healthy Environment | Organized Corporation | Enthusiastic Employees |
 Delighted Customers | Anticipated Enthusiasm | Company Overview

COMPANY OVERVIEW

Focusing on building relationships and enriching lives, Green Leaf Corporation is expert in providing divergent services .

Our services include Waterproofing systems, Cement & Epoxy Grouting, Chemical Anchor & Mechanical Anchor, Construction Breaker, Core cutting, Expansion Joint, Epoxy Floor Repairing, Industrial Painting, Nozzle Grouting, Rebaring Work, Waterproofing retrofitting and rehabilitation work and protective anti-carbonation coating. Since our beginning we have managed to build an unbreakable bond with numerous architects, engineers and consumers.

Green Leaf Corporation has grown to expand their services in various parts of civil engineering industries. All of what we are today is all the zeal and vision of Green Leaf founders and the enthusiastic approach of its employees.

We have in a short time managed to build a large social responsibility of an organized corporation.

OUR CLIENTS

Our Services

We have an array of specialized products for every need. Keeping in mind the urgency for a cleaner & greener environment, we have developed an assortment of products to specifically serve that need.

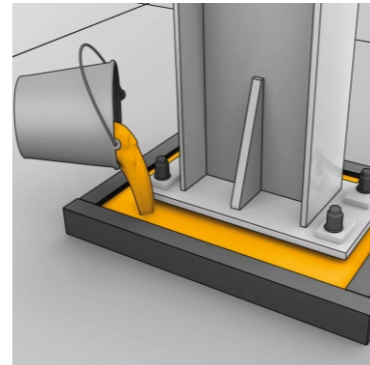

Waterproofing Systems

Waterproofing systems are a necessary part of any foundation. It not only increases the durability of the structure but also prevent water from entering in any section or cut in the structure Green Leaf Corporation is providing many type of application for waterproofing work.

Engineering Grouts

A Wide range of products that are cementitious, epoxy and polyurethane based engineering grouts which have non-shrink, free-flowing and injection grouting range products, It also includes anchoring grouts for re-bars.

Industrial Flooring Systems & Floor Repairs

We provide industrial flooring system for new floor and old floor. New floor system Epoxy flooring, Densification flooring, Polyornithine Flooring & Much More. Old Flooring System includes Floor Repairing System.

Concrete Repairs & Rehabilitation

Concrete repairs and rehabilitation refers to the modification and significant changes in any concrete structures. We provide different services in retrofitting and rehabilitation in all structures like industries, dam, bridges, Commercial & residential building.

Green Leaf Corporation Portfolio

Highway Repairs

We provide varieties of cementitious, polyester, epoxy and bitumen-based road repair systems which has exceptionally quick- repair for bitumen and concrete roads. This system helps to make a quick patch repair of man-hole cover in a shor period of time.

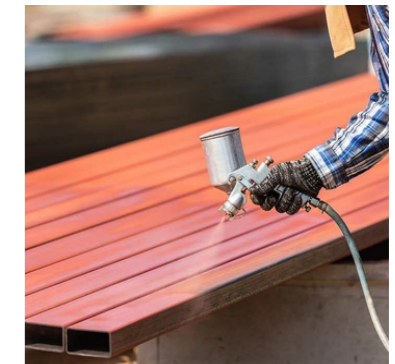

Expansion Joint Sealants

We have differant kind of sealants Like PU sealants, Polisluphide Sealants, Porable Sealants, Gun Grade Sealants etc. Expansion joint sealants are amazing stuff that is known for its ability to absorb impact. It is also known for its ability to expand and contract. It expands or contract along with the rest of the surface/ structure so that to avoid the cracks.

Protective Coating & Decorative Paints

Protective coatings are applied to a surface to protect the substrate from corrosion. An effective way in which to protect metal from corrosion is by physical isolating a substrate from its environment by applying protective coatings.

Core Cutting, Anchoring Re-Bar & Construction Breaker

We provide service in Core-Cutting, Chemical and Mechanical Anchor, Construction Breaker at all type of Civil Industries like Commerical and resident Project's, Railway's, Highway projects, Dam, tunnels & Industrial projects.
